Data Source	Florida's COVID-19 Data and Surveillance Dashboard , Dashboard and case counts will now update only once per day , at approximately 11:00 AM.		Note that "city" is not always received as part of the initial notification and may be missing while the case is being investigated.	

*Per FDOH, "Hospitalizations" is a count of all laboratory confirmed cases in which an inpatient hospitalization occurred at any time during the course of illness. These people may no longer be hospitalized. This number does not represent the number of COVID-19 positive persons currently hospitalized. We do not have a figure for that information at this time.
