

Severe Weather Status Report #2

A.) Emergency Operations Center Overview

Incident Name: July Operations	Date: 07/29/2020	Time: 12:30
EOC Activation Level: Level 2-Partial/Virtual	SEOC Activation Level: Full-Level 1	
Local State of Emergency Declaration: N/A- Not for this event	Governor's State of Emergency Declaration: N/A-Not for this event	Federal Disaster Declaration: N/A-Not for this event

Contact Information

Duty Officer: Angela Salter, 813-734-5507, SalterA@hillsboroughcounty.org

B.) Current Status

Overview:

There is a fast moving tropical cyclone disturbance 1,465 miles southeast of the Tampa Bay that is forecast to reach Florida in the next three days. Forecast models have higher than normal uncertainty with track and intensity and we expect changes in the forecast. Potential tropical rain and wind impacts could start late Saturday or Sunday. The earliest reasonable time of arrival of Tropical Storm Force Winds in Hillsborough County could be sometime Saturday evening. It is too early to forecast rainfall amounts due to uncertainty in forecast timing, forward speed, and intensity. Potential exists for a multiday rain event this weekend into early next week.

There are currently no watches or warnings in effect

C.) Potential Impacts and Activities

Potential Impacts

Specific to Hillsborough County

- Hillsborough County should expect increased rainfall and the potential for tropical storm force winds this weekend

Current Actions

- Continue to monitor the weather system's progress and local weather
- Coordinate with partners as needed
- The EOC will continue to monitor for impacts
- Updates will be provided as needed

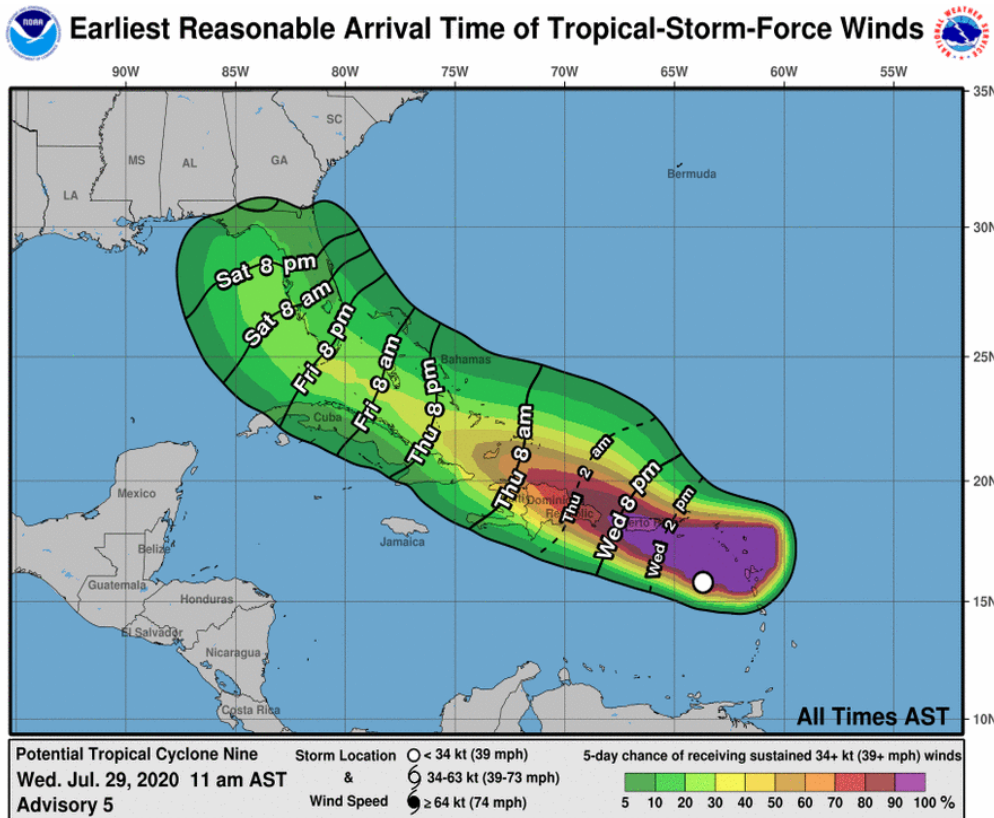

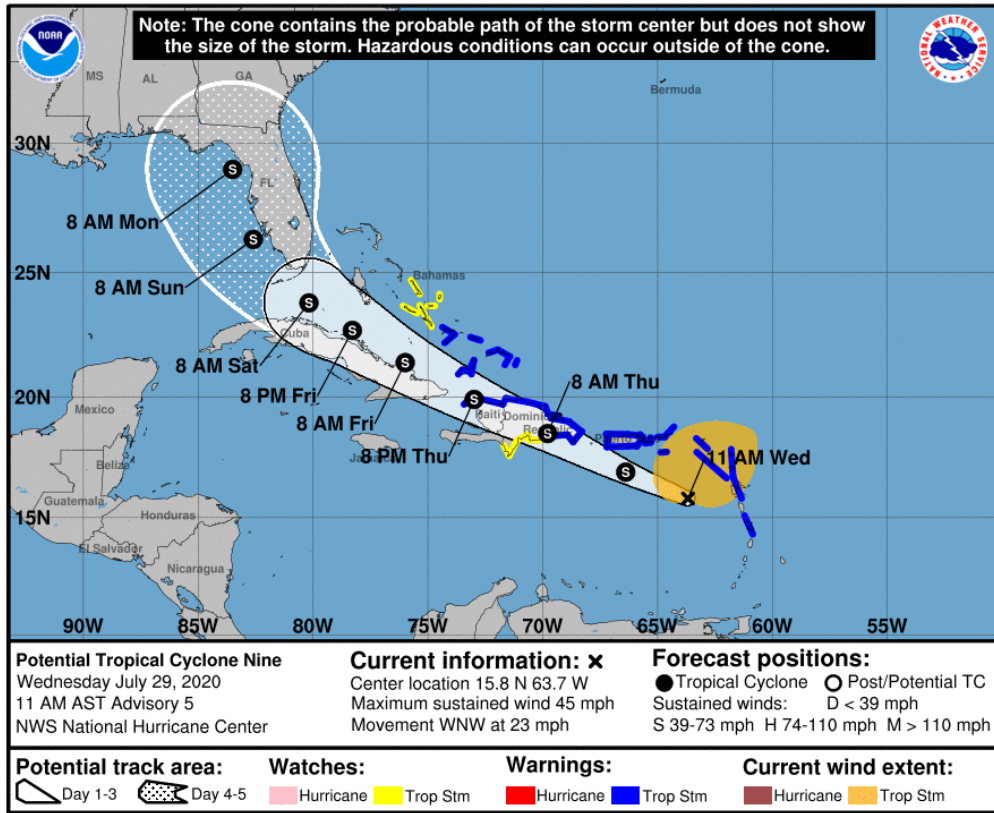

Recommended Actions

Share weather forecasts and protective measures/actions with your partners and communities. Monitor the weather reports on a regular basis: here are some websites to review:
